Science Fair

Have you heard the news? BAQ will be having a science fair this spring! The date is April 16, 2020. Students have the opportunity to work in groups of six or less or to work individually to pursue a personal scientific interest using the scientific method. Blyth is promoting interest in STEM as a subject, as a personal interest, as a career; the science fair is a great opportunity.

Students must sign up with their science teacher by the end of the day on March 1. Please encourage your children to participate in this fun and enriching opportunity.

Model United Nations

This weekend, twelve students will be attending the Georgetown University Qatar's Winter Model United Nations Conference from Thursday, February 20 to Sunday, February 23. We will have two students serving on the International Court of Justice Committee, three serving on the Security Council, and seven serving on the Human Rights Committee. Good luck to you all!

SIMUN

We have been invited to join the South India Model United Nations on April 7th—April 15th. We would like to know if you would be interested in this opportunity.

Please email alissar.abboud@blythacademyqatar.com to express interest and find out more information. There will be an information session if there is enough interest.
